• Salivary Gland vs. Pancreas
  ○ Salivary gland has striated ducts - cuboidal epithelium
  ○ Both have intercalated ducts - flat squamous epithelium
  ○ Pancreas has centroacinar cells
• Intestine vs. Gall Bladder
  ○ Intestinal villi have lots of cells in core as well as blood vessels, ducts etc.
  ○ Gall bladder folds just have connective tissue and a less cells
  ○ Gall bladder has thicker muscularis mucosae
• Pylorus vs. Duodenum
  ○ Look for submucosal Brunner's glands --> duodenum
  ○ Villi in dudoenum, only pits in stomach
• Jejunum/Ileum vs. Duodenum
  ○ Same thing w/ the submucosal glands
• Cardio-esophageal jxn vs. recto-anal jxn
  ○ Cardio-esophageal is transition from
