Brand names of combination products

IMPORTANT WARNING:

People who take nonsteroidal anti-inflammatory drugs (NSAIDs) (other than aspirin) such as ibuprofen may have a higher risk of having a heart attack or a stroke than people who do not take these medications. These events may happen without warning and may cause death. This risk may be higher for people who take NSAIDs for a long time. Tell your doctor if you or anyone in your family has or has ever had heart disease, a heart attack, or a stroke;

Magazine

Easy to Read Version

Multiple Languages
Welcome to the Web site for NIH MedlinePlus, the magazine.

Our purpose is to present you with the best in reliable, up-to-date health information. We bring you the latest breakthroughs from NIH-supported research. We feature people from all walks of life talking about how they've handled their health challenges.

Sometimes it's the famous, like Lance Armstrong, Randy Jackson or Mary Tyler Moore. But mostly, it's regular people who have turned to NIH for care and want to share their stories. Often, too, NIH scientists will write about their efforts to cure disease. Lastly, the magazine's lively graphics, fun quizzes and practical tips have been designed with your daily health in mind.

We hope NIH MedlinePlus becomes a favorite source of trusted health information for you, whether you read it in your doctor's office, local health center, clinic, or hospital waiting room. Last of all, we hope that you take out a free subscription.

NIH MedlinePlus is produced by NIH, the National Library of Medicine, and the Friends of the National Library of Medicine. Subscriptions are available free of charge.

With the best of good health to you and your family,
Donald A.B. Lindberg, MD
Director
