Dear Justin,

Thank you for sharing the power that community can have in healing. Thank you for teaching us how holding on to a hope for the future can help us get through tomorrow.

Surrounding you in hope,
Jenni

Justin's Sand Tray: Faith

When I was diagnosed, I was in shock and I was praying. I was thinking, "am I going to make it through the surgery?" God helped me through my surgery. At school, they also had a fundraiser for me. That is what the "charity" rock stands for. I only have two more chemos to go and I am going to have a party.
