

1.5 Hypertension in Pregnancy (15 minutes)

Lecture

Dr. Diana Wolfe is Assistant Professor in the Department of Obstetrics & Gynecology and Women's Health, Division of Maternal-Fetal Medicine at Albert Einstein College of Medicine. In the next video she gives an introductory lecture about hypertensive disorders in pregnancy.

Please note that after watching this lecture, you will be asked to write down the item from this lecture that is most important to you.

The image below is developed to give you an overview of the different diseases associated with hypertension in pregnancy. It will be displayed in every Learning Unit about the different diseases.

Assignment

Please reflect on what you found most important in the lecture of Diana Wolfe. Add this and the reason why down below, under 'post a remark'. It may be whatever you think is best: a definition, something you didn't know before, something you know from experience that it is very important, and so on.
