Ob-gyn residency program at St. Paul Hospital Millennium Medical College

Learning objectives for the course or programme:

The practice of obstetrics and gynecology requires a commitment to professional as well as to personal growth. In addition to practicing technical skills, physicians should cultivate the ability to expand and apply those skills in a variety of settings. As such, knowledge of ethical principles, communication skills, and the ability to acquire and continually update information are important components of professional development. There are six core competencies for incorporation into OBGYN resident training program: patient care, medical knowledge, Interpersonal and Communication Skills, professionalism, Practice-Based Learning and Improvement, and Systems-Based Practice.

Suggested topics or keywords related to this topic:

Patient communication, normal and complicated labor and delivery, Manual Vacuum aspiration, Suturing skills, Management of Postpartum hemorrhage, surgical emergencies in a pregnant mother, hysterectomy (elective/emergency) vagina

Intended Learner Audience:

Postgraduate/Graduate
