

# Finding Open Content

There are several online repositories and collections you can use in order to find content that is licensed for sharing. Use these to search for content as you create new learning resources or to replace non-open content in your existing materials. Check our wiki for a more complete collection: [https://open.umich.edu/wiki/Open\\_Content\\_Search](https://open.umich.edu/wiki/Open_Content_Search)
